### EXAMINER'S AMENDMENT

The following changes to the drawings have been approved by the examiner. In order to avoid abandonment of the application, applicant must make these above drawing changes.

#### *Drawings*

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. **Therefore, the ventilation grill per claim 1 and the double walls of steel and vinyl ester per claim 1 must be shown or the feature(s) canceled from the claim(s).** No new matter should be entered. The figures reference a front panel with a ventilation grill but do not specifically reference the ventilation grill.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering

Art Unit: 3635

of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose the combination of an inner cabinet housing the transformer, voltage cells, telecontrol panels and also having a ventilation grill with an external enclosure which has a roof, sliding door and hollow pillar. The prior art discloses ventilation means such as grills, piping protruding from an outer surface, vents, fans, etc., but the prior art of record specifically does not disclose the combination of the above mentioned with a hollow pillar that stands vertically between a base and a roof and provides a conduit to evacuate heat through holes provides in the lower portion of the roof.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3635
